

Dear Parent/Guardian,

At Woolton High School Careers is a vital part of the school curriculum. It gives students hope and ambition and provides them with the knowledge to succeed in their future.

Careers is delivered to years 7-11 with the aim of all students gaining as many realistic and engaging opportunities as possible during their time at the school.

Due to the importance of preparing our students for success the school has implemented a new careers programme called **Fast Tomato**. **Fast Tomato** has been one of the most popular online career guidance programmes for young people, helping millions of students explore the many different career opportunities open to them. It is accurate, relevant and easy to use. **Fast Tomato** has been designed to help young people broaden their horizons and consider a broader spectrum of career and education options. Students take a short psychometric questionnaire which gauges interests, attitudes and motivations. They are then offered career and education suggestions, personalised to them.

Some students may already have a login for the programme with all remaining students receiving one this half term. The resources linked from the site are impressive and we actively encourage students to logon with their parents to both review their results, and to engage with the wealth of up-to-date careers information available.

For any further information/guidance, you can visit the site at: <https://www.fasttomato.com> or contact the school direct.

Yours Sincerely

G.Smith

Careers Leader
